

Facility Engineering Associates

Physical Security Services

Our Services

FEA assists organizations with physical security assessments, emergency planning, preparedness training, and response exercises. Our services cover the full spectrum of physical security measures and can include a variety of tasks to help make your facilities more secure, including:

- Independent assessments of all security elements, such as locking systems and hardware, access control, notification and communications methods, video surveillance systems, and egress and refuge capabilities.
- Evaluation of staffing requirements needed to adequately address security.
- Site visits that safely assess vulnerabilities in structures, systems and staff operating practices.
- Development of emergency and crisis plans following national guidelines and industry best practices.
- Training on security awareness, emergency preparedness, crisis response, and security operations.
- Tabletop and full-scale exercises where participants test functional roles they would be expected to play in a real-time event.

Our Team

Paul Timm is a board-certified Physical Security Professional (PSP), the author of *School Security: How to Build and Strengthen a School Safety Program*, and a nationally acclaimed expert in school security. In addition to conducting numerous vulnerability assessments and frequent keynote addresses, Paul is an experienced School Crisis Assistance Team volunteer through the National Organization for Victims Assistance (NOVA). He is an active member of ASIS International's School Safety & Security Council. Paul is certified in Vulnerability Assessment Methodology (VAM) through Sandia National Laboratories and the ALPHA™ vulnerability assessment methodology.

Randy Braverman has 34 years of experience in managing security operations in a variety of roles including Security Consultant, Director of Security and Campus Safety, and law enforcement officer. He has overseen full-scale emergency crisis exercises and coordinated the efforts of local, county, and state authorities, military forces, hospitals, and school personnel within these exercises. An Emergency Preparedness Specialist, Randy conducts vulnerability assessments using the ALPHA™ vulnerability assessment methodology and provides technical assistance for emergency and crisis plans for school districts, municipalities, and corporations. Randy is an instructor for the Illinois Law Enforcement Training and Standards Board Executive Institute: Illinois School and Campus Training Program.

Our Value

Our Physical Security Services provide you the tools to deter, detect, delay, communicate, and respond in the event of an emergency situation. Your employees, occupants, customers, and visitors are more secure in their daily activities and better prepared to respond if the unexpected should happen.
